### Ötletek:

Kisebkek a kártyák alapján a nyilakat követve keressék meg hová vezet az út!

Ha a nyilak követése már jól megy, nevezzék is meg az irányt, merre lépnek!

Lépegethetnek a nyilak segítségével úgy is, hogy nem az irányokat, hanem azokat a képeket nevezik meg, amelyeken áthaladnak!

Használhatjuk a táblát a balról jobbra haladás kialakítására, egyszerűen balról jobbra haladva kell kimondania a gyerekeknek a képek nevét!

Taníthatjuk vele a sor és oszlop fogalmát.

Kerestethetünk képet a tábláról, meghatározás alapján: pl. Mi van a süni és az esernyő között? stb.

Nagyobbaknak készíthetünk ehhez hasonló kártyákat:

<p><b>Indulj a gombától!</b> Lépj a következő irányokba: <b>J F B L L - Hová értél?</b></p>
---

Később már átlós irányokat is kérhetünk: jobbra fel, balra le, balra fel, jobbra le.

Használhatjuk főfogalmak gyakorlásához: keress gyümölcsöket, állatokat, ruhaneműket stb.

Írathatunk a tábla alapján: Pl. Írd le az első oszlop szavait! vagy Írd le a 2.sor 3. szavát!

Gyakorolhatjuk a betűrendbe sorolást: Írd le ábécérendben a 3. oszlop szavait!

Alkothatunk mondatokat egy-egy képről vagy kérhetjük, hogy 2-3 kép nevét fogalmazzák egy mondatba!

Játszhatunk barchobát is a táblán lévő képekkel!

Jó szórakozást!
